

+GF+ Giotto Compression Fittings

+GF+

Giotto combines the strength of a metal thread with the easy and fast connection of a +GF+ Compression Fitting. Ideal for industries that prefer metal on metal threads and the extra confidence this provides.

The metal male and female threads are manufactured from Nickeled Brass OT58 according to UNI/ISO standards for gas threads: Conical male thread and Cylindrical female thread.

The Giotto range utilises all the benefits of the +GF+ compression fitting including the patented lip seal.

Heavy-duty nickel plated brass threads
