

NETA – The soaker hose you won't tangle with

The soaker hose kit from Neta includes a handy stake and reel. The stake has a dual function; it anchors the hose and it keeps the top facing upwards. Clearly marked stripes along the top show that it has not twisted and help line it up.

First put the stake in the ground, then place your hands through the centre of the reel and walk backwards, allowing the reel to unroll effortlessly from your fingers. No kinks, no fuss, no tangles. Connect it to your garden hose and you're ready to soak.

When you've finished watering, rewind. Simply clip the hose and the stake back into the reel, and hang for compact storage. All hose components are preassembled and come with a three-year warranty. Another neat idea from Neta!
