#### FEATURES & BENEFITS

- Easy clean filter – Simply rinse with a garden hose nozzle
- Seven metre head pump – Will evenly water gardens uphill and down
- Failsafe to sewer – Will not overflow if the power fails
- No storage of greywater – Greywater will not become stagnant and smelly
- Installed outside below ground – Can be unobtrusively fitted to new slab-on-ground homes
- Simple diversion to either garden or sewer – Diverts to sewer during rainy weather or whenever harsh chemicals are used
- Electric and Manual diverter valve models – Upgrade to an electric model and operate the diverter valve from the bathroom or laundry
- Unique irrigation pods – Large flow system and air cavity eliminates blockages from roots and lint whilst ensuring greywater is dispersed 100mm below the ground
