

## **GB** #6101 Sod Cup Kit Instructions

1. Remove screws from gear drive's rubber cap.
2. Remove rubber cap.
3. Align sod cup with screw holes.
4. Replace screws.

### **Tips**

1. Do not install sod cup higher than the finished grade.
2. Place sod in cup rather than seed; seed will likely wash away during use.
3. Sod cups are appropriate for locations which utilize reel mowers.
